

CI 218 M de Carteret

First name: Matthew

Last name: de Carteret

Q1:

A new framework that supports all range of ages for classification.

Q2:

Provide coverage for legal classification to allow adults to choose content they wish to view and interact with.

Q3:

No. Technology is just tech, it serves the purpose designed and carries no context on what the content is within.

Q4:

Full coverage of classification will ensure nothing sneaks passed and that no reaction will require poorly thought out kneejerk responses.

Q5:

I would support all content to receive classification even if to just say it's for minors, similar to film.

Q6:

No.

Q7:

Art and creative works that receive classification shouldn't be restricted based only on the classification, it should them be given the discretion of the location or host as to if the content is suitable for general display or private display with 18+ ID required.

Q8:

Classification should apply to all media content but that classification should not be the final note on whether people are allowed to view/purchase/play, the classification should be an advisory for people to make informed decisions like adults.

Q9:

No.

Q10:

Yes, The classification should affect the acquisition of the content and not the location of viewing.

Q11:

Q12:

None. If you can make a security scheme, someone can make a way to bypass it. Give people the options, give them the choice and they will do what they deem appropriate.

Q13:

Parents can perform their role of raising their children instead of giving them unsupervised access to online content.

Q14:

Voluntary content filtering on home PCs or networks.

Q15:

During the start of the product, on the case and on the physical media.

Q16:

Minimal. :]

Q17:

yes, Self classification would provide a review basis of content and intended audience.

Q18:

Q19:

Q20:

M15 and M15+. M15+ should have just been an R18 rating.

Q21:

Q22:

Q23:

Q24:

Prohibited porn like child porn and bestiality.

Q25:

No.

Q26:

Yes. a single level australia wide will cut costs on having content reviewed by 8 different groups.

Q27:

Q28:

Q29:
