Developing a new framework

Q2:

Making an R rating available for games so that Adults of Australia can make their own decision whether they want to play those type of games that are more than a MA 15+. Also by doing this and no longer banning games.... There will be no need for gamers to import those games.

Q21:

YES... MAKE AN R+18 rating for adults! Some of the best games for adults have been banned just because they dont fall under the MA15+ rating..... like Mortal Kombat 9. Every other Mortal Kombat has been let into the country.... so why count this one out?

Make an R +18 rating.... So that us older gamers can play games that we want to play and not have to go behind the Australian governments back and import in. K thanks. You will be making the entire of the Australian gaming community very happy if this is to happen. :D
