

CI 103 J Moore

Dear Commission,

I have read and understood the 29 questions you propose to answer regarding review of previous legislation.

This note is to request that greater restraints on pornography and homosexuality be placed upon all media.

I am the mother of three and work in behaviour management in a high school, daily I see and hear the effects of our children reeling under the forces to shape them into lifestyles and choices most parents cringe at. To say that our culture has degraded significantly over the past 40 years is my pathetic cry to ask you to change laws governing a media hell bent on robbing this generation of all virtues.

Therefore, please legislate less license and protect millions of children and millions to come and the millions of adults who abhor pornography and homosexuality in all media.

Yours Sincerely,

Jennifer Moore
