

CI 1110 M Love

First name: Morgan

Last name: Love

Q1:

The LARC should focus on improving key elements of the existing framework. Having no R18+ rating for games is robbing Australia of content and forcing lower ratings on content, making it available to those it shouldn't be available to.

Q2:

Adding an R18+ classification.

Q3:

No, all content classification should be universal. People should not be forced to use, or not use, certain technologies or platforms.

Q4:

No. All content should be required to be classified.

Q5:

No, all content should be classified.

No, content designed for children should be classified using the same framework as everything else.

Q6:

No, all content should be classified.

Q7:

Artwork should be classified in the same manner as everything else.

Q8:

Yes.

Q9:

No, all content should be classified.

Q10:

No, all content should be classified.

Q11:

All content should be classified.

Q12:

Education and dangerous website monitoring, with disclaimers advising consumers of this monitoring in contracts between consumers and ISPs.

Q13:

Better parenting, teaching etc. In home controls.

Q14:

Better classification system. Penalties akin to underage cigarette and alcohol purchasing.

Q15:

When it is age restricted.

Q16:

Government: classification and classification defining. Industry bodies: adhere to laws/rules set out by governments, users: adhere to rules and laws set out by governments.

Q17:

No.

Q18:

None.

Q19:

Classification costs should be paid for, in full, by the government, at all times.

Q20:

No. All do. For example, few know the difference between M15 and MA15, G and PG.

Q21:

Add R18+ for games.

Q22:

Standard, government regulated designs. All games with the same classification should have the same classification markings in the same place.

Q23:

Yes.

Q24:

None. Monitoring of pedophilic, terrorist related and all serious criminal related sites should be monitored.

Q25:

No.

Q26:

Yes. Classifications should be the same across the country.

Q27:

Q28:

Yes.

Q29:

Clearer, simpler and better defined classifications.
