Dear sir,

There is already too much sexual related material available. So the guidelines need to be tightened, to those children who are vulnerable will not be exposed to risqué material. And those parents who want their children to be safe when on line, need reassurance that their children will not be exposed to such material.

The G rating that allows sex, coarse language and nudity is NOT suitable for children to access. This should become PG. And the MA 15+ category should be confined to adults only.

Let us encourage our children and teenagers to grow up in a wholesome way!

Yours sincerely,

Mrs Ruth Allison
