

CI 1309 A Barrow

First name: Andrew

Last name: Barrow

Q1:

Improve the existing framework

Q2:

To make classification guidelines consistent across all media

Q3:

No

Q4:

No

Q5:

All content should be classified across all media

Q6:

No

Q7:

Yes

Q8:

Yes

Q9:

No

Q10:

No, all content should be classified

Q11:

None, all content should be classified

Q12:

Classification should be there to help people decide what is suitable for them and their family. As such, online content should be restricted using using an optional web filter. Each person should be able to decide whether they want to visit that classified content.

Q13:

Parents should have access to a free web filter, which they can choose whether to enable, and decide which categories of content should be available to their family

Q14:

Children should be forbidden to purchase any content for which they are not old enough by the classification. Parents can purchase content for their children if they believe they should be able to see it

Q15:

All content

Q16:

Government should be responsible for advising people on the content of various media, so that individuals can decide whether that media is suitable for them and their family. Governments shouldn't restrict access to content, except to ensure children can't access content without approval of their parents.

Q17:

Yes

Q18:

Images and audio recordings

Q19:

Anything that isn't for profit should have subsidised classification

Q20:

Yes, existing classifications are fine

Q21:

There needs to be an R classification for computer games and online media

Q22:

Classifications should be the same across all media

Q23:

They should be used as a starting point for a unified classification criteria for all media, including ratings from G through to R for all media

Q24:

It is not technically feasible to prohibit content online

Q25:

It is not technically feasible to prohibit content online

Q26:

Classification should be done at a national level, not per state

Q27:

Classification should be done at a national level, not per state

Q28:

Yes

Q29:

All media needs classifications ranging from G to R. No media should be banned because there is no R rating for that media

Other comments:

All media needs rating ranging from G to R. No media should be banned because there is no R rating, including interactive media like computer games.
