

CI 1346 G Thorpe

First name: Glenn

Last name: Thorpe

Q1:

should focus on a new framework with an open discussion on why any elements need to be governed. An open discussion and analysis of the real, quantifiable consequences of not governing particular elements needs providing for everyone to consider. This needs to include the effect of moving the boundaries, by tightening or loosening the particular definitions. For example if there is no governance of comic porn just what is the expected impact on the number of child molestations and murders. If you cannot quantify it leave it!

Q2:

freedom, just freedom
