New Framework

Q2:

To determine the best classification structure and ratings for improving the morals of society

Q3:

no

Q4:

no

Q5:

yes and yes

Q6:

no

Q7:

yes

Q8:

yes

Q9:

no

Q10:

no, all content should be classified

Q11:

any content of books, film, media, internet sites, etc. that are accessible to society should be rated to guide access and advise on content use

Q12:

access by identification only

Q13:

set up access codes that are difficult to overcome or crack without proper identification

Q14:

regulate where they can be sold or distributed, like cigarettes.

Q15:

whenever it is publicly available

Q16:

government should regulate the morally offensive or degrading materials, industry bodies should support this and provide materials that are restricted only under legislated guidelines, and users should be able to access materials suitable to their age and moral responsibility.

Q17:

no

Q18:

violence, offensive language, nudity, sexually explicit material, horror

Q19:

no

Q20:

not effectively. M and MA ratings still cause confusion with the age limits.

Q21:

no

Q22:

Q23:

yes

Q24:

pornography and extreme violence
