Q20:

The existing classifications are understood by the community - the odd system is the gaming classifications as R rated material is either banned entirely or pushed down to MA which makes

parents uncertain of what is right for their children to be using - an R rating would eliminated this grey area.

Q22:

Q23:

Yes - the current gaming system has questionable content banned that is suitable for adult gamers (the average gamer is in their 30's) or has games inappropriate for children make a MA rating
