Q11:

Q12:

Access to the internet should not be controlled in any way. The National Classification Scheme should not restrict anything, only inform the public.

If a site contains content which is illegal to create then it should be dealt with through a law enforcement agency to bring down the site.

Q13:

Education to parents and children on internet safety; Filtering software on the computer which can be controlled by a parent; Opt-in filtering at the ISP level.

Q14:

I don't think this needs to be controlled any better.

Q23:

Q24:

Content which is illegal to produce should be prohibited, however prosecution of content creators/distributors would be more effective than access restriction (as access restrictions are easily circumvented).

Q25:

No. Only content which is illegal to create should be refused classification.
