

CI 483 M Schier

First name: Mark

Last name: Schier

Q1:

Yes

Q2:

To make all the classification ratings standard across the board. ie. the same classifications for movies, tv as computer games. Computer games should have an R18+ rating available.

Q3:

No

Q4:

No

Q5:

Yes

Q6:

No

Q7:

Yes

Q8:

Yes

Q9:

Yes

Q10:

Yes

Q11:

Q12:

Q13:

Make sure that they have to enter a credit card or some other form of identification before a purchase can be made.

Q14:

Make sure they are out of reach/line of sight of children.

Q15:

When sold online it needs to be shown clearly on a page before purchasing or prompt the user. When media is sold in the shop it should be labelled front and back and on the sides, again clearly so all can see.

Q16:

Government Agencies and Industry Bodies need to be able to inform the users what type of content they will be purchasing/watching/listening too so that the user can make the correct choice on whether or not they deem it appropriate for them to purchase/watch/listen to the content.

Q17:

Q18:

Q19:

Q20:

no, the MA15+ rating for games is definitely confusing as much of the content should be in a R18+ rating category that needs to be implemented.

Q21:

R18+ category for games definitely needs to be added.

Q22:

Make them the same shape size and position them in the same places.

Q23:

yes

Q24:

Child porn

Q25:

Q26:

Have a national classification system that is consistent across all states and territory's make it easier to police and creates less confusion.

Q27:

Q28:

Q29:

Other comments:

Australia really needs to consistently classify all media content in a similar manner. All media types should have a rating system similar to that of movies.
