

CI 547 D Shore

First name: David

Last name: Shore

Q1:

The current classification system relating to video games needs to be updated and/or expanded to include additional ratings for adult material.

Q2:

To provide an easy to understand classification system that is uniform across all forms of media.

Q3:

Content should be classified on a case by case basis, regardless of how the media is accessed.

Q4:

No

Q5:

Q6:

Q7:

No

Q8:

An informative system for adult themes in lyrics and explicit lyrics is adequate and does not need enforcing.

Q9:

Q10:

Q11:

Q12:

Adults should be allowed to access the content they desire freely.

Q13:

This is the parents responsibility, not an outside party.

Q14:

age/id checks much like tobacco and alcohol are quite adequate.

Q15:

Content related directly to the product should display classification markings.

Q16:

Provide informative markings to the public and let them decide from there.

Q17:

Q18:

content should be classified on a case by case basis,

Q19:

Q20:

The lack of an R18 rating for video games has created a gap of inconsistency between it and films.

Q21:

the classification system should be uniform across the board.

Q22:

Correlation between movies, tv and video games needs to be consistent.

Q23:

Q24:

Adults should be free to access whatever material they choose.

Q25:

Q26:

Classification systems should be the same regardless of which state or territory you access the content from.

Q27:

Q28:
