Q20:

Q21:

In the area of video games an R18+ is needed but the current rating system is outdated and games are ether being rated as MA15+ when an R18+ rating is required, getting censored (the game "Left 4 Dead 2 for example) or being outright banned (Mortal Kombat). having an R18+ isn't about have more voilent games, its about properly rating what is in the market today.

Q22:

Q23:

Yes, an R18+ rating for games is needed.

Q24:

No content should be prohibited
