grant gaming media the same rights and classifications as DVD/TV media .

Q23:

yes

Q24:

none

Q25:

Q26:

Q27:

Q28:

Q29:

Other comments:

It is long overdue that Games Media be allowed an r18 classification in this country , its is disgraceful that what is viewed in our own homes on tv currently would not make it through on a Gaming format in Australia. Adult consumers may purchase everything else both online and in stores yet are unable to purchase gaming media does to simple Classification issues.
