

CI 901 J Hoffman

First name: josh

Last name: hoffman

Q1:

yes

Q2:

allowing people to be able to make informed decisions on what they wish to be exposed to

Q3:

Q4:

Q5:

yes the impact should affect classification. yes content for children should be classified, but different types of media would require different types of classification.

Q6:

yes

Q7:

yes

Q8:

Q9:

no, if content is to be classified as something it shouldn't matter how large the audience is the content is still the same

Q10:

no

Q11:

Q12:

Q13:

Q14:

Q15:

whenever it is possible

Q16:

Q17:

Q18:

Q19:

Q20:

the difference between M and MA is often misunderstood among new 15yr olds.

Q21:

yes R rated classifications for games are needed. for as technology grows the graphics in this media also grows and they become a lot more realistic. possibly even higher classifications will be required in the future.

Q22:

Q23:

Q24:

Q25:

Q26:

yes, the same classifications should be used interstate. its the same content no matter if your experience it in NSW or WA or any other state or territory so it should be classified the same.

Q27:

Q28:

yes

Q29:
