---

Greetings,

Hope all is well.

This is email is express our concerns of the recent ARLC consultation paper on the removal of religious exemptions from the sex discrimination act.

We are concerned as our kids go to Christian faith based schools and their teachers connection to Jesus in their lives is important as it showcases our personal beliefs and values. It's also important as our kids learn from our teachers ongoing relationship with God.

I can see the ARLC proposed consultant paper applicable to public schools however with faith based schools there must be exemptions. Please reconsider this paper proposal as parents and schools still have a right of their opinion which is a gift for all Australians.

Thank you for your time.

Warmest Regards  
Jason Man
