

TO WHOM THIS MAY CONCERN

Catholic Schools have been established in Australia since it's early beginnings.

The purpose of these Schools is to give children a good education and a good grounding in the Catholic Faith.

For many years these Schools were given no Government assistance despite the fact that the parents of the children were paying their taxes like everyone else. In other words their taxes were contributing to the cost of Government Schools.

It was not until Prime Minister Fraser acted to correct this injustice, did Catholic Schools receive any assistance from the Government.

It is an established fact that Catholic Schools are well run and students are well taught.

In employing teachers and staff generally, the Schools naturally look to employ people of strong Catholic Faith to help impart that Faith to the students.

To try and force Catholic Schools to adhere to so called discrimination laws at the cost of going against their basic aim of passing on the Catholic Faith is wrong.

Surely an employer is entitled to choose who works for them based on that employers requirements. Surely this is reasonable common sense.

Thousands of Australian servicemen and women gave their lives in two world wars to save freedom being taken from people by despotic dictators.

The problem is we have double standards in this country.

On one hand the Federal and State Government's show great concern about child abuse, elder abuse, sexual abuse, family violence, discrimination etc. etc.

On the other hand they show exactly the opposite to those concern's by making Suicide legal rather than giving top priority to providing adequate resources to help people in their last days with love, compassion and the best medical care.

Equally, their so called concern for children is empty and meaningless when they make Abortion on demand up to the moment the child is born legal. Abortion the unseen, most horrific cold blooded destruction of a child.

We live in dangerous times when, at our peril, Christian morality is under attack and the Commandments ignored.

Leave Catholic Schools alone, do not try and stop them passing on the faith through a hypocritical fog of political correctness.
