

With Regard to suggested changes to the Native Title Act 1998;

My property Gilnockie station was the first to utilise this Act in the Northern Territory.

Whilst we found it difficult to navigate back then due to its newness, I now understand that unless there is to be a change of "Purpose or Use" of a proposed subdivided portion which would thus require a change of "Tenure" for that subdivided portion, I believe that the Act as it stands is streamlined enough.

That is, it suits both Lessees and Native title aspirants or holders as is..

John Armstrong.

NT Lessee of Gilnockie Station.
