To whom it may concern,

It is absolutely appalling that the government can even consider making the buying and selling of children easier.

Surrogacy is a transaction of a commodity.

Children are not commodities to be bought or sold. Children are not slaves or products.

It is not complicated. It is not difficult.

It is an absolute deception to claim you can protect the “human rights” of a child who was conceived to be sold to a couple.

Children can be conceived in loving male - female relationships. They can be adopted or fostered.

To create a child to sell it!!! That is the most obscene concept a so-called civilised society could come up with.

Adults don't possess the “right” to have children to scratch their own itch, or just because they want to. Children are not an accessory, product or commodity.

The needs of the children must always be paramount.

Children are not commodities and should never be bought or sold. This is a form of human trafficking.

Please register my utter disdain and contempt for this inquiry.
