SOME TH0UGHTS ON SURROGASY.

__ Men nd women all have different views on procreation and because we as a people have moved further and further away from the creator of life. GOD himself ,we have lost the meaning of parenthood.
This is why the demnds of unnatural family ethics are brought to bear on the vunerable.
ONCE financial committments are made , the baby then becomes a Commodity and that lays the dangers that rejection brings.
The great fulfillment of the family unit is the procreation of chidren Coupled with the nurturing, guiding,caring,environment that the child will always feel safe, secure and needed in a close fitting bonded family.
Our children are our future and the product of their environment.
They are more precious than wealth and parents have the priviledge to love Protect, guide and shape their lives in those early formative years
Society is reaping the whirlwind because it has been puting SELF and WEALTH before SECURE, SAFE families

There is a way that could achieve TWO POSITIVES.

CHANGE ABORTIONS TO ADOPTIONS

SET UP PLACES where MOTHERS with unwanted pregnancies can be Cared and nurtured to willingly give up their baby to the MOTHER and FATHER who cannot bear children and who like HANNAH (Samuels's Mother) yeared for a child.

The FAMILY UNIT MUST BE MAINTAINED

Child care centres are an example of sellig our children to the government

You are dealing with dishonest powers.

Keep up the fight to promote TRUTH

May the LORD GOD ALMIGHTY BLESS and SUSTAIN you.

Yours Sincerely Norman McLean
